|-----------------------------------|---|
| <b>A Path to Math</b>             | This math class for the youngest learners is a great refresher for 1st graders and a great way to prepare for the year ahead for kindergartners. Focus will be on the fundamentals of elementary math---identifying numbers, greater than/less than, addition, subtraction, place value and more. Each week features a different topic with fun games, math problems and books. The structure of the class allows for group discussion, allowing students to work with their peers to master math!  |
| <b>Advanced Chess</b>             | Advanced Chess is for those who have played Chess before and have prior knowledge of the rules. Learn advanced strategies and tactics to help win more games. All players will learn about the etiquette and strategy of a game that is truly a great lifetime activity for young and old alike.  |
| <b>Architecture</b>               | Develop sketching skills, draw plans, and build models in this course that incorporates the elements of design, drafting, measurement, and geometry. Students will bring their visions to life using wood, cardboard and other materials as they begin to understand and appreciate the principles of good design. Students will learn how to   |
| <b>Beginning Chess</b>            | Beginning Chess is for students who have never played the game or have only played a few times. Learn the fundamentals of chess, including the basic moves of pieces, their value, interaction and how to win. All players will learn about the etiquette and strategy of a game that is truly a great lifetime activity for young and old alike.   |
| <b>Budding Artists</b>            | Blast off to the world of art and turn ordinary objects into your own, out of this world, masterpieces using a variety of mediums and materials. Enjoy a warm and welcoming environment to grow and encourage the inner artist in you and encourage the same in your fellow classmates. This 'class' is meant to build confidence and communication skills in our budding artists as much as it is about art. <i>See Class Description at <a href="http://www.GreenwichAfterSchool.com">www.GreenwichAfterSchool.com</a> for class materials shopping list.</i> |
| <b>Chess</b>                      | All levels welcome. New players welcome to learn how to play a full game of chess and how to write down moves to learn from mistakes. Experienced players learn strategies and tactics to help improve their game. All players will learn about the etiquette and strategy of a game that is truly a great lifetime activity for young and old alike.   |
| <b>Dinosaur Discovery</b>         | Discover the amazing world of dinosaurs from T-Rex to Velociraptor! We'll explore how fossils are made and see how these long-ago clues have provided information on these extinct beasts. We'll learn about the dinosaurs that walked in Connecticut, investigate which dinosaurs were carnivores, and even get to meet some live relatives of dinosaurs today.  |
| <b>Karate</b>                     | Your martial arts journey is here! Train to improve physical conditioning and practical self-defense skills. The goal of this traditional martial arts program is to develop the whole person - body, mind, and character, thereby increasing confidence, focus, self-discipline, self-control, and respect for self and others.  |
| <b>Let's Sing!</b>                | SING with your peers in this fun filled class of song and self expression. Learn and practice healthy vocal warm-ups, singing techniques and new songs and increase your confidence along the way. Share your stronger singing skills with a video-taped recording at the end of the session.   |
| <b>Making Mosaics</b>             | MADE Art Studio in Mamaroneck comes to you! Each week students will decorate a different wood base with colored glass and other found objects to create a truly unique work of art. Learn different techniques and explore your creative side. Materials will be delivered to your home.  |
| <b>Minecraft Game Development</b> | In this hands-on, fully guided experience become a Minecraft Game Developer. Learn the basics of game building and creative development as you plan, model, design and build your own digital world. <b>**Students will need a Minecraft account which can be purchased at <a href="https://www.minecraft.net/en-us">https://www.minecraft.net/en-us</a>. Prices for lifetime accounts are \$6.99 for IPADS and \$29.99 for laptops and PCs. If your child plays Minecraft on a personal device, then no need to purchase an account.</b>                       |
| <b>Physics Jr.</b>                | Explore the exciting world of how things work! This class introduces the topics of heat, magnetism, magnetic fields, electricity, simple circuits and more! Materials will be mailed home.  |
| <b>Puzzle Masters</b>             | Do you love mysteries, finding clues and solving puzzles? This class is for YOU. We focus on teamwork, logic and critical thinking skills to crack codes, escape room and solve mysteries online.   |
| <b>The Wonder of Watercolor</b>   | From seascapes to still life pictures, animals to abstract art, we will bring our art to life with the beautiful colors and values of watercolor. <i>See Class Description at <a href="http://www.GreenwichAfterSchool.com">www.GreenwichAfterSchool.com</a> for class materials shopping list.</i>   |
